Pertinent Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 2003/0209819 discloses a process for making micro-lenses comprising the steps of creating a master mold using gray scale technologies, and making secondary molds from the master mold.

JP 7-323428 discloses a method of manufacturing a stamper comprising the steps of forming a resist layer on a substrate, exposing the resist through a photomask, developing the resist, thermally fusing the resist to form a microlens array pattern, evaporating an electroconductive metal layer onto the pattern, electrocasting a metal layer on the electroconductive metal layer, and peeling the metal layers off the substrate.

US 6,071,652 discloses a method of fabricating optical elements by transferring a gray scale pattern onto a photoresist, wherein the patterned photoresist can be used to fabricate a master element for injection molding.

EP 0 475 741 discloses a method of manufacturing a focusing screen by proximity exposure, wherein the focusing screen comprises a large number of microlenses having different heights.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

In a method of fabricating a stamper by half-tone technology as set forth in claim 1 of the present invention, the prior art does not teach or suggest the method wherein the exposing and developing process with the half-tone mask forms a plurality of photo resist patterns having different heights, with the flow process forming a microlens surface on each photoresist pattern.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. McPherson whose telephone number is (571) 272-1386. The examiner can normally be reached on Monday through Friday, 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on (571) 272-1385. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
